

The diagram illustrates the layout for a 1.5 Round Seal. It features a large light blue circle representing the overall seal size. Inside this is a white circle, which is further defined by a red solid line (finished size) and a green dashed line (safe area margin). The text 'ENHANCED RAISED FOIL 1.5 ROUND SEAL' is centered at the top. Below the title, four horizontal rows define the margins: a green dashed line for the safe area margin, a light blue rectangle for the production buffer, a red solid line for the finished size, and a light gray rectangle for the bleed area. The bottom row defines the art size with a black solid line.
